Safety Warning:

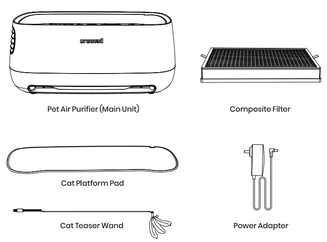

Thank you for purchasing this air purifier.
To prevent possible injury to you or others, or damage to property, please carefully read and follow the safety instructions below. If the unit or power cord is damaged, it must be replaced by the manufacturer, an authorized service center, or qualified technicians to avoid potential hazards.

1.Please disconnect the power supply before installation, servicing, maintenance, or transportation.
2.Do not touch the power plug with wet hands, as this may cause electric shock.
3.Please turn off the unit and unplug it before replacing the filter.
4.Before connecting the product to power, confirm that the voltage indicated on the rear or bottom of the unit matches your local power supply.
5.If the unit or power cord is damaged, replacement must be performed by the manufacturer, an authorized service center, or qualified personnel.
6.Do not damage the power cord or outlet. Never bundle, bend, or tie the cord during use. Using a damaged cord may cause electric shock, short circuit, or fire.
7.Do not cut, modify, excessively bend, twist, pull the cord, or place heavy objects on the cord or plug.
8.When unplugging, hold the plug firmly. Do not pull the cord, as this may cause short circuits, electric shock, or fire.
9.A damaged plug, damaged power cord, or a plug that is not fully inserted into the outlet may cause electric shock, overheating, or fire.
10.If the power cord or plug becomes unusually hot, turn off the unit immediately and contact an authorized service center.
11.If you notice a burning smell, unusual noise, vibration, or any abnormal operation, turn off the unit immediately and contact an authorized service center.
12.Clean the power plug regularly. Dust accumulation combined with moisture may damage insulation and cause electric shock or fire.
13.Do not use damaged plugs or loose electrical outlets.
14.Do not disassemble or modify the unit, as this may cause electric shock, malfunction, or fire.
15.Do not use or store the unit in high-temperature, humid, or wet environments. Moisture may cause electric leakage, electric shock, or fire.
16.Do not use the unit in areas with oily particles, such as kitchens, as this may reduce filter life or cause malfunction.
17.Do not use the unit while fumigating indoors with insecticides.
18.Do not clean the unit with benzene, thinner, or other solvents, and avoid contact with insecticide sprays. This may cause cracking, short circuits, electric shock, or fire.
19.Do not insert fingers or foreign objects into the air inlet or outlet, as this may cause electric shock or injury.
20.Do not allow water, liquids, volatile substances, or flammable materials (such as cigarettes or sparks) to enter the unit, as this may cause fire.
21.This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning safe use of the appliance.
22.This air purifier is not a substitute for proper ventilation, regular vacuum cleaning, or exhaust systems.
23.Maintain at least 10 cm (4 in) of clearance on the front, back, and both sides of the unit, and at least 30 cm (12 in) above the unit.
24.Do not place any objects on top of the unit or sit on it.
25.To prevent interference, keep the unit at least 200 cm (79 in) away from appliances that use radio waves, such as TVs, radios, or radio-controlled clocks.
26.Place the unit on a stable, hard, level surface. Do not place it on soft surfaces such as carpets.
27.This product is for indoor use only. Keep it away from rain and outdoor environmental exposure.
28.If the unit will not be used for an extended period, unplug it from the power outlet. Failure to do so may result in insulation degradation, fire, electric shock, or short circuits.

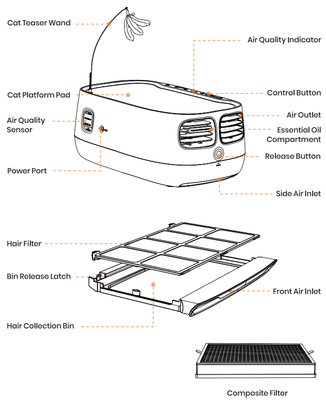

WARNING: To Reduce The Risk Of Fire, Electric Shock Or Injury To Persons, Do Not Use Replacement Parts That Have Not Been Recommended By The Manufacturer (e.g. Parts Made At Home Using A 3D Printer).
WARNING: To Reduce The Risk Of Fire Or Electric Shock, Do Not Use This Fan With Any Solid-State Speed Control Device.

Package Contents

Product Overview

Specifications

Product Name:	Pet Air Purifier
Model:	PP03
Adapter Input:	100–240V~ 50/60Hz
Adapter Output:	24V ⎓ 2A (48W)
Product Dimensions (L × W × H):	20.47 × 12.60 × 8.50 in (520 × 320 × 216 mm)
Net Weight:	12.13 lb (5.5 kg)

Operating Instructions

Self-Check

Before first use, ensure all packaging materials are removed and the air inlet and outlet are unobstructed.

Power On

After powering on, the power indicator stays solid, indicating standby mode.

Memory Function

① After unplugging and reconnecting the power, the unit resets to default settings (Level 2 fan speed).
② If turned off without unplugging, the unit resumes the previous settings when powered on.

Indicator Light Colors

Buttons & Indicators: White
Filter Indicator: White
Air Quality Indicator: Green, Orange, Red

Air Quality Indicator
The indicator light shows real-time air quality and auto-adjusts fan speed accordingly:

Indicator Color	Air Quality Level	Auto Mode Fan Speed
Green	Excellent	Low
Orange	Good	Medium
Red	Poor	High

Control Button Panel

Buttons Sound: All buttons produce a beep when pressed.

Power Button
When plug in: All indicators light up for 1 second, then turn off. The power indicator remains solid (standby mode).

Action	Main Unit Status	Indicator Light Behavior
Short press	Turn on	Indicators follow the last used settings (memory mode).
Short press again	Turn off	The power indicator remains solid, all other lights turn off.

Fan Speed Button
Short press the fan speed button to cycle through modes: Auto →L1 →L2 →L3 →MAX →Auto…

Mode	Description
Auto	Fan speed adjusts automatically based on PM2.5 levels
L1 (Sleep Mode)	Ultra-quiet operation (~24 dB)
L2	Default setting when powered on
L3 (High Speed)	Increased airflow for faster purification
Max (Pet Mode)	Maximum power, ideal for pet environments

Auto Mode
Short press the fan speed button to select Auto Mode (Auto indicator on). Press again to exit Auto Mode.

Auto Mode Fan Speed	Air Quality Indicator	Fan Speed
Low	Green	Level 1
Medium	Orange	Level 2
High	Red	Level 3

Timer Button
Short press to cycle through timer options:
2H →4H →6H →8H →OFF →2H…

Timer Setting	Description
2H	Auto shut-off after 2 hour
4H	Auto shut-off after 4 hours
6H	Auto shut-off after 6 hours
8H	Auto shut-off after 8 hours
OFF	Timer function disabled

Sleep Button
Short Press: Enters Sleep Mode. The Sleep indicator turns on. In Sleep Mode, the unit runs at speed level 1. Only the Sleep indicator remains on; all other button lights and the air quality indicator turn off.
Short Press Again: Exits Sleep Mode and restores previous settings (fan speed, timer, lighting).

Pet Lock Button
Press & hold (Pet Lock + Filter Button) (3s) :
The Pet Lock indicator lights white, activating touch-lock (anti-misoperation) mode.
Note: When Pet Lock is enabled, pressing any other button has no effect. The Pet Lock indicator flashes white to indicate the lock is active.

Press & hold again (Pet Lock + Filter Button) (3s) :
The indicator turns off, and Pet Lock mode is disabled.
Note:
In Timer Mode, Pet Lock remains enabled after the timer ends. The Pet Lock indicator stays off, while the Power indicator remains solid white. Pressing any other button makes the Pet Lock indicator flash white.

Filter Reset Button
① **Filter replacement required**: The filter indicator turns white (Generally recommended to replace the filter every 5 to 6 months.)
② **Press & hold (3s) after replacement:** The filter indicator will turn off, confirming the filter has been reset. The unit will then restart tracking the filter usage time.
Note:
If the filter is replaced before the indicator turns white, you should still press and hold the Filter button for 3 seconds to reset the timer. In this case, the light will not change, but a beep will sound to confirm the reset.

Installation Steps:

1.Remove the pet air purifier and power adapter from the box. Remove all packaging materials and place the unit on a dry, stable surface.
2.Hold the base and press the side release button to remove the top cover.

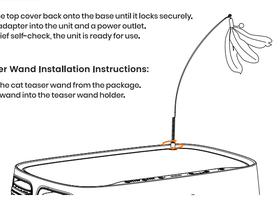

3.Take out the filter, remove its packaging, and reinstall it correctly.
Note: Do not get the filter wet.

4.Attach the top cover back onto the base until it locks securely.
5.Plug the adapter into the unit and a power outlet.
6.After a brief self-check, the unit is ready for use.

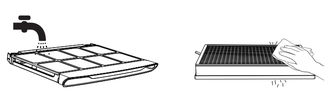

Cat Teaser Wand Installation Instructions:

1. Remove the cat teaser wand from the package.
2. Twist the wand into the teaser wand holder.

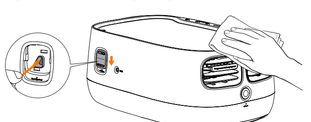

Cleaning and Maintenance:

1. Clean the hair collection bin regularly: Remove collected hair at least once a week to prevent airflow blockage and extend filter life.
2. Wash the hair collection bin: Rinse with clean water and allow it to dry completely before reinstalling.
3. Clean the unit and filter: Use a dry cloth or vacuum to remove dust and hair from the unit and filter.

4.Clean the air quality sensor: Slide down the dust sensor cover, then gently clean the sensor lens with a cotton swab.
Note: Do not use corrosive cleaners (such as alcohol or cleaning foam), as they may damage the sensor.
5.Before cleaning: Always turn off the unit and unplug it before cleaning the bin or filter.

Warning:
Do not expose the unit or filter to water. Do not rinse or wash the main unit. Only the hair collection bin and cat platform pad are washable.

Filter Replacement:
When the filter indicator turns red, the filter needs to be replaced.

1.Press the round buttons on both sides of the unit and lift the top cover to remove the old filter.
2.Remove the packaging from the new filter and install it in the correct direction.
3.Reassemble the unit.
4.Press and hold the filter button for more than 3 seconds to turn off the indicator.

Note:
If the filter is replaced before the indicator turns red, you must still press and hold the filter button for 3 seconds to reset the timer.

Trouble Shooting

Issue	Cause	Solution
Unit stops working during operation	The HEPA filter is not installed. The motor may enter self-protection mode after prolonged high-power operation.	Turn off the unit, check whether the HEPA filter is properly installed, and restart the device.
Filter indicator turns white	The filter needs to be replaced.	Replace the filter.
Filter indicator shows orange/red light	The air sensor is dirty.	If the indicator remains on after replacement, remove the air sensor located at the back of the unit and gently wipe it with a soft cloth. Reinstall and test again.
Control panel is unresponsive	Pet lock (anti-mistouch mode) is activated.	Press and hold the Filter button and Pet Lock button simultaneously for 3 seconds to deactivate the lock, then try again.
